

FREEDOM OF INFORMATION TRAINING FOR PUBLIC SECTOR

The Freedom of Information Act (FOI), together with its junior partner the Environmental Information Regulations (EIR), has been in force for a decade. Yet it still presents challenges for public authorities across the UK. FOIMan is well placed to provide quality in-house training for your employees that will help them to know their duties, understand the benefits of improved transparency, manage the burden, and protect what needs protecting.

Training options

This training can be provided in a range of formats, depending on your needs. Those who regularly handle requests will want more in-depth courses, and this is provided by my full-day workshops. Other employees may benefit from half-day courses highlighting the key requirements that affect them. For busy workers and managers with little time to spare, bite-size introductions of up to an hour will be appropriate. Get in touch to discuss which options will best suit your organisation, and for a competitive quote reflecting your needs and budget.
